PROFESSIONAL EXPERIENCE

12/2013 -4/2016
VividCortex

Fronted Engineer
Working on the company's main web app, developing/designing multiple sections/tools.

Also wrote an integration with Hipchat. that allowed users to interact with the web app, which included the option to take live screenshots of the app, using a mixture of phantom.js and GO.

8/2012 -11/2013
Globant

Senior UI Developer
Responsable for the front-end of an internal app for NYSE, while also developing some back-end features (ASP.NET/MVC)

6/2011 - 8/2012
Infocorp

UI Developer
Adding features to the company's core banking product and worked on an hybrid mobile app for Bnaco de Bogota, to be used on iOS/Android devices, developed Phonegap + Sencha

Past jobs date up to 2005, and include an wide variety of taks, always related to application design and development, including developing interactive experiences using the now difunct Flash platform, for brands like AXE, Pepsi, Henineken, etc.

Also during this time multiple games were developed as personal projects.
